

GETON CONTAINERS

# 100-foot folding container for cement plant

## Overview

---

How clinker can be stored in a cement silo?

The cement silo is equipped with a fluidization discharging system to achieve the homogenization of cement in the process of cement feeding and discharging. You can use steel silos, high wall silos and tent-shaped warehouse to store clinker. The storage capacity of a steel silo is 1-50,000t, and the silo body is steel structure.

What is the role of storage and transportation system in cement plant?

In each section of cement plant, storage and transportation system plays a decisive role. For example, raw material homogenization and transportation, clinker storage and transportation, as well as finished cement storage, conveying and distribution. SRON provides bulk material storage and transportation system solutions for cement plant customers.

Can a cement silo be moved with a 1 ton truck?

As with the upright portable silo, this silo can normally be moved with a 1 ton truck. The cement silo is an integral piece of equipment for any concrete production operation. The silo allows the product to be purchased and stored in bulk, keeping costs to a minimum.

What is CS-100 cement silo?

CONSTMACH 100 tonnes capacity cement silo CS-100 has a wide range of usage area from concrete plants to block machines and also ground study applications. CS-100 can be manufactured as bolted or welded type. 2 sets of bolted version of CS-100 can be shipped within 1 pcs. 40 ft. OT container or a truck.
