# **10MWh Energy Storage Container in Hanoi for Wastewater Treatment Plants**

## Overview

---

Can a wastewater treatment plant recover bio-energy from wastewater in Vietnam?

Assessment of bio-energy from wastewater in Vietnam<sup>54</sup>In 2016, the Hanoi University IESE and TU Darmstadt (Germany) conducted a study to determine the potential of the Long Bien district (Hanoi) wastewater treatment plant to recover energy and heat. The Long Bien district (Hanoi) serves a population 352.

Is there a capacity to build a wastewater treatment facility in Vietnam?

Bi-water (United Kingdom)ARCADIS (The Netherlands)In Vietnam, there is a generally sufficient capacity in engineering and construction for 'traditional' wastewater facilities. However, there is limited capacity in terms of design and building of advanced wastewater treatment facilities and th.

Does Hanoi have a centralized wastewater treatment system?

The wastewater treatment infrastructure for industrial wastes is inadequate with outdated equipment and production technologies, and only 60% of industrial clusters have a centralized water treatment system . A section of To Lich River, one of the most polluted rivers in Hanoi Source: Journal of Economics and Environment.

Can wastewater be used for energy recovery in Vietnam?

ication of energy recovery from wastewater in Vietnam. Only with SSS can wastewater treatment facilities be supplied with wastewater o sufficient strength to consider producing bio-energy. This could be especially attractive if combined w th other (solid) sources of carbon-rich organic waste. However, at present, no WWTP in Vietnam

## 10MWh Energy Storage Container in Hanoi for Wastewater Treatment
