

# **3C Energy Storage Power Standard**

## Overview

---

What is CCC 3C certification?

China officially announced the mandatory CCC (3C) certification requirement for Lithium-ion batteries and battery packs, power banks, and power supplies used in electronic and electrical products, as well as Power adapters/chargers used in telecom terminal products on 16 March, 2023.

What are energy storage battery certifications?

Global certifications ensure that energy storage batteries meet stringent safety, performance, and environmental standards, mitigating these risks while facilitating market access. 2. Key Energy Storage Battery Certifications Worldwide.

How many new GB standards are there in 2023?

Tel.: +49 69 271 37 69 150 In Announcement No. 20, 2023, the SAC announced the approval of 423 new GB standards, including battery and energy storage systems.

What is a lithium-ion battery energy storage system (BESS)?

As the global transition to renewable energy accelerates, lithium-ion battery energy storage systems (BESS) have become critical components in grid stabilization, renewable energy integration, and backup power applications.
