

48v50a lithium iron phosphate solar container battery

Overview

How much does a 48V 50Ah LiFePO4 battery weigh?

·Large Capacity and Lightweight: Fully charged 48V 50ah LiFePO4 Lithium Battery can support 2560Wh energy for your appliances. It weighs only 58.42 lbs, only 1/3 of the weight of a 48V 50Ah AGM SLA Battery. It makes installation and movement more easier.

What is 48V renogy lithium iron phosphate battery?

The latest 48V Renogy Lithium Iron Phosphate Battery is taking the smart batteries to the next level. With built-in intelligent self-heating, you can keep your battery charged in cold environments effortlessly. The 48V nominal voltage ensures more than 4500 life cycle□low heat generation and high efficiency during high power transmission.

What is a 48V 50Ah lithium battery?

The 48V 50Ah lithium battery is an ideal choice for powering outdoor campsites and for easy installation indoors. ·Safer Metal Shell Design: Explosion valve and metal steel shell design protect it from fire and explosion. It can be stacked to save space and easy to wire.

How much does a 50Ah battery weigh?

It weighs only 58.42 lbs, only 1/3 of the weight of a 48V 50Ah AGM SLA Battery. It makes installation and movement more easier. ·Long Life Cycle: Grade A LiFePO4 Cells makes the 50Ah battery more stable and greater, and the lithium rechargeable battery cycles more than 3000 times, which is more than 4 times comparing with Lead-acid batteries.
