

# **5MWh Mobile Energy Storage Container for Emergency Command**

## Overview

---

What is a 5 MWh battery?

5+MWh capacity□optimized for utility scale application, ensuring peak shaving and grid stability. Features 314Ah LFP battery cells, 20ft standard container design, high energy density, and multi-level safety. High corrosion-resistant and compliant with global environmental standards.

What is Aceon energy storage?

AceOn offer one of the worlds most energy dense battery energy storage system (BESS). Using new 314Ah LFP cells we are able to offer a high capacity energy storage system with 5016kWh of battery storage in standard 20ft container. This is a 45.8% increase in energy density compared to previous 20 foot battery storage systems.

What is the power capacity of energy storage system?

capacity of this energy storage system s 1.25MW/5MWh. It adopts a DC 1280V system solution.The energy storage system adopts an air cooled d sign and the AC side voltage level is 35kV. The mainapplications are smoothing PV power, f equency regulation, 1 chematic diagram of energy storage unit topo.

Can I deploy multiple battery containers?

We can offer flexible deployment of multiple battery containers supporting both back-to-back and end-to-end installations. The battery container is compatible with the leading global inverter manufacturers such as SMA & Power Electronics with up-to 2.5MW of power per battery container.

## 5MWh Mobile Energy Storage Container for Emergency Command

---

### [5MWh Containerized Energy Storage System](#)

1. 5MWh Containerized Energy Storage System
2. Modular design allows convenient installation, saving labor cost.
3. Extendable-modular, adding more capacities as needed, Nx5MWh.
4. Safest LiFePO4 technology, ...
