## Overview

---

### What is APsystems Solar System?

The APsystems solar solution empowers system owners to get the most energy possible out of their systems, while being highly efficient and cost effective. Combined with its energy storage offering and a user-friendly system and monitoring interface, APsystems offers convenience and flexibility tailored to your energy needs.

### How many solar panels does APsystems have?

The company has powered over 10 million PV panels across 300,000+ installations worldwide, adhering to high-quality standards with ISO9001 and ISO14001 certifications. In June 2022, APsystems was listed on the Shanghai Stock Exchange, further expanding its global presence.

### Who is APS Solar?

APS Solar, founded by Rick Burkhard in 2002, is a company based in Sonora. I started this business as a way to bring my personal passion for solar and electrical engineering to our community. Solar technology has evolved a lot since then, and there is an increasing demand for independence from an uncertain energy future.

### What is APS Solar communities?

Our APS Solar Communities program is a unique opportunity for limited-income and moderate-income customers, who may not have considered solar as an option, to help advance solar in Arizona. We'll take care of the installation and any maintenance, while you get the bill credit. A west, south or east-facing roof with little to no shade.
