

# **Atess hybrid inverter factory in Hungary**

## Overview

---

Where is ATESS based?

Based in Shenzhen, China, ATESS has a sophisticated and automated manufacturing plant. An international service network with offices and warehouses has been built in 5 continents to ensure fast shipping and after-sale service. Our product The ATESS solutions include all-in-one hybrid inverters, battery inverters and lithium battery solutions.

How many kW can a hybrid inverter support?

Supporting up to 1200kW system capacity. All-in-one hybrid inverter has a power range from 5kW to 150kW. This integrated solar hybrid inverter integrates photovoltaic, energy storage and grid management, providing reliable backup power, achieving energy independence and having strong grid support capabilities.

What is a hybrid inverter?

A hybrid inverter is a device that combines the functions of a solar inverter (converting DC power from solar panels to AC power) and a battery inverter (managing the charging/discharging of a battery storage system). It can intelligently manage power flow between solar panels, batteries, the grid, and loads.

What is a 2-in-1 hybrid inverter?

ATESS's 2-in-1 hybrid inverter combines solar and battery into a single unit, enabling uninterrupted energy conversion and storage.

## Ateess hybrid inverter factory in Hungary
