

# **Barbados Portable solar container outdoor power Customization**

## Overview

---

Should you buy a solar PV system in Barbados?

One of the biggest, if not the biggest hurdle to further solar PV penetration in Barbados is the upfront cost of a system. When you think about the fact that the cost is essentially the prepayment of 25-30 years worth of electricity it makes sense that the price is “high”. If you could purchase a. Continue reading →.

Is Barbados a leader in solar energy?

Continue reading → Barbados continues to maintain a leadership position in solar energy within the Caribbean. Building on a successful Renewable Energy Rider program which has seen 9MW of distributed solar PV installed, the electricity market has finally opened up to independent power producers (IPPs) to develop utility scale solar projects.

Can Barbadians earn passive income from solar panels?

Now a very similar model is available in Barbados which allows Barbadians to own solar panels within an operating solar project and thereby earn solar passive income for 25. Continue reading → Getting involved in the funding of the global solar power transition has never been easier.
