

# **Battery cabinet fire extinguishing device base station**

## Overview

---

Can a lithium-ion battery energy storage system detect a fire?

Since December 2019, Siemens has been offering a VdS-certified fire detection concept for stationary lithium-ion battery energy storage systems.\* Through Siemens research with multiple lithium-ion battery manufacturers, the FDA unit has proven to detect a pending battery fire event up to 5 times faster than competitive detection technologies.

What is a battery safety cabinet?

Additionally, these safety cabinets are equipped with anti-static devices to prevent battery damage or accidents caused by static electricity. With the rapid development of the new energy industry, the application of batteries in energy storage is also becoming more extensive.

How does a sysbel fire resistant battery charging cabinet work?

**SYSBEL Fire Resistant Battery Charging Cabinet Features:** **Fire Isolation:** The cabinet can quickly isolate the source of fire when a battery burns, preventing the spread of fire. **Automatic Fire Extinguishing:** An automatic fire extinguishing system activates in the event of a fire, controlling the fire to a minimum.

What are cellblock battery storage cabinets?

CellBlock Battery Storage Cabinets are a superior solution for the safe storage of lithium-ion batteries and devices containing them. Our practical, durable cabinets are manufactured from aluminum, and lined with CellBlock's Fire Containment Panels.
