

GETON CONTAINERS

Brasilia solar container battery BESS Information

Overview

Will Brazil install a battery energy storage system in 2024?

A study by Brazilian consultancy Greener has indicated that the country installed 269 MWh of energy storage capacity in 2024, growth of 29% from 2023. Demand for battery energy storage system (BESS) components grew 89% in Brazil from 2023 to 2024 and most of the resulting systems are likely to be installed in 2025.

Will Brazil build 224 MWh of battery energy storage capacity by 2025?

Credit: Vitalii Stock via Shutterstock. Brazilian electricity company Matrix Energia has completed Brazil's first green debentures issuance worth \$100m Brazilian reais (\$17.9m) to build 224 megawatt-hours (MWh) of battery energy storage capacity by 2025.

Can Brazil be a big battery storage country?

With well-designed policies and regulations, Brazil has significant potential to follow in the footsteps of jurisdictions like California and Chile for large-scale battery storage, Germany for distributed and large-scale storage, and Australia for both pumped hydro and large-scale battery systems.

Will Bess double Brazil's energy capacity?

The company's plans to install more BESS, which is set to double Brazil's current capacity. Lithium Valley, a provider of energy storage systems, reported that total BESS capacity was 250MWh in 2023, with most of the technology deployed in rural areas.
