

GETON CONTAINERS

British energy storage container manufacturer

Overview

How big is battery energy storage in the UK?

The UK had a total of 4.4GW of battery energy storage system (BESS) capacity as of June 2024. And the sector is braced for further significant growth, with the total capacity of projects in the pipeline rising from 50.3GW to 95.6GW between 2023 and 2024.

Who are the most influential companies in the UK storage sector?

An overview of the most active and influential companies in the UK storage sector is provided by this data-driven list, which is updated in real time. SSE Renewables is a leading renewable energy company specializing in onshore wind, offshore wind, hydro, solar and battery technologies, with a growing presence internationally.

What is a battery energy storage system?

Battery Energy Storage Systems (BESS) or battery containers are used to store power generated by renewable energy sources such as wind and solar. BESS units play a crucial role in global carbon reduction. The UK has the largest installed offshore wind capacity in the world.

What is the current energy storage capacity in the UK?

The current energy storage capacity stands at 4.6 GW/5.9 GWh, expected to increase to 7.4 GW/11.6 GWh by the end of 2024. As the UK transitions to renewable energy, storage technology is vital for grid stability, optimizing energy use, and cutting emissions.
