

Bulgaria solar Container Substation

Overview

How many MW is a new photovoltaic plant in Bulgaria?

The new photovoltaic plant with the capacity of 165MW is added to the 18MW installed capacity of the Garda wind farm, already operated by the PPC Group in Bulgaria. PPC Group, on top of the 208MW of RES in operation or under construction, has an additional 550MW of RES in Bulgaria at various stages of development.

How much solar power does Bulgaria have?

The solar power plant's estimated output is equivalent to the electricity needs of more than 45,000 Bulgarian households. PPC Group runs an 18 MW wind farm called Garda in the country and has another 550 MW in its renewables project pipeline. The company's overall online green energy capacity is 5.5 GW.

What is happening with ppc group in Bulgaria?

Dynamic expansion of PPC Group in Bulgaria · Commencement of construction of a new photovoltaic plant in Stara Zagora- Bulgaria, with a total capacity of 165 MWp and a Battery Energy Storage System (BESS) with a nominal capacity of 25 MW and 55 MWh storage capacity.

How many MW of PV capacity is under construction in Romania?

Another 160 MW of PV capacity is under construction in the country. PPC Group is the largest renewable energy producer in Romania, operating 25 wind, photovoltaic and hydroelectric facilities as well as battery storage units.
