

# **Chad communication operator small base station**

## Overview

---

Is Chad lagging behind in the development of telecommunications?

Compared to the United States, Chad is massively lagging behind in the development of telecommunications. Under the country code +235, there were a total of 12.09 million connections in 2022. Among them were 12.09 million mobile phones, which corresponds to an average of 0.68 per person. In the US, this figure is 1.1 mobile phones per person.

Is Chad a good place to invest in telecom services?

Nevertheless, despite difficult operating conditions, large scale poverty and low spending power, Chad's telecom market offers some potential for investors to develop services given the low starting base.

Which telco operates Salam mobile in Chad?

The mobile sector has developed steadily under the auspices of Airtel Chad and Tigo Chad which together accounted for 99% of the users, while the national telco and fixed-line operator, Sotel Tchad (ST) operates the country's third mobile network, as Salam Mobile.

How do you write a letter to a telecommunication company in Chad?

Telephone numbers (including toll-free numbers, if available). Email addresses. Physical address of main customer service centers. Website address. Social media handles. If possible, include the name of the regulatory body overseeing the telecommunication sector in Chad. Include any recent regulatory changes that have impacted the MNOs.
