

# **Commercial Uninterruptible Power Supply in Cuba**

## Overview

---

What is an uninterruptible power supply (UPS)?

An uninterruptible power supply (UPS) provides a source of power for the equipment it protects. If there is a disruption to power, the UPS has an on-board battery to automatically supply to electrical equipment until the disruption is over or back-up generators kick-in. What is a WIMES UPS?

.

What is the electricity and power supply like in Cuba?

View on Amazon.com → What's the electricity and power supply like in Cuba?

Although Cuba officially runs on 110V, many of the more modern hotels have 110/220V (dual voltage) outlets to cater to the lucrative European market.

What type of power outlet does Cuba use?

Cuba uses both Type A/B and Type C power outlets. Some hotels will use one type and others another, although plenty use both, sometimes even in the same room! As a result, you'll have to pack the proper adapter to recharge your devices while on the road.

What is a water power supply (UPS)?

WIMES (Water Industry Mechanical and Electrical Specifications) UPS (uninterruptible power supply) is a robust critical power system built for harsh atmospheres such a dusty environments, moisture and humidity, as well as extremes in temperature and sites where robust solutions are required.
