

Construction of a new energy storage power station in Berlin

Overview

Does totalenergies invest in battery storage projects in Germany?

TotalEnergies, on the occasion of Patrick Pouyanné's participation in the Europe 2025 conference in Berlin, and in connection with the company's integrated development in Germany's electricity sector, revealed investment decisions for 6 battery storage projects with 221 MW of new storage capacity and an investment outlay of €160mn.

Will MW storage build a lithium-ion battery storage power plant in Arzberg?

MW Storage, acting as the project developer and participant through its fund, will oversee the construction of a lithium-ion battery storage power plant in Arzberg.

Will Germany add more power storage projects in 2023?

Germany will likely add many more projects in the coming months, as the federal government increasingly focuses on storage solutions. In December 2023, the Federal Ministry for Economic Affairs and Climate Action (BMWK) published its "Power Storage Strategy" to accelerate the development of new capacities.

How will totalenergies contribute to the resilience of Germany's power system?

This storage capacity will allow TotalEnergies to contribute to the resilience of the German power system, by reducing congestion and adding flexibility in order to quickly boost the country's renewables sector," the company said.
