

# Dublin Battery Storage

## Overview

---

How many MW of battery storage capacity are there in Ireland?

We currently have more than 300MWs of battery storage capacity in operation in Ireland, making it one of the largest battery portfolios in Europe. We plan to develop a pipeline of large scale battery projects, as well as additional renewable enabling technologies.

Which battery energy storage systems are available in Ireland?

The Kylemore Battery Energy Storage System in Dublin went into operation in 2023 and has the capability of providing 30MW of fast-acting storage. The South Wall Battery Energy Storage System went live in 2023 and has the capability of providing 30MW of fast-acting energy storage.

Does ESB have a battery storage plant in Ireland?

Irish state-owned utility ESB on Wednesday opened a 75-MW/150-MWh battery energy storage plant, currently Ireland's largest, at its Poolbeg site in Dublin. Image by ESB on LinkedIn.

How much power will Ireland's battery storage fleet produce?

If these predictions materialize, the battery storage fleet across Ireland and Northern Ireland will have a power output of 5 GW up from the currently installed 1 GW. To continue reading, visit our ESS News website. This content is protected by copyright and may not be reused.

## Dublin Battery Storage
