Solar Hub Ireland delivering renewable energy solutions. Check out the Top Categories for All Your Needs. Electricians in Ireland can now use the first PLUG N PLAY system without commissioning. The package includes all the cables and brackets needed to secure the battery on the wall. Why choose Afore?

.

What is a solar PV inverter?

Solar PV inverters are essential for any photovoltaic (PV) system that needs to utilise AC power. Their primary function is to convert the DC power generated by solar panels into usable AC power, which can then supply the electrical loads in a property. There are many different types of solar inverters available in the market today.

What does a solar inverter do?

The inverter converts the DC electricity into alternating current (AC) electricity, which is the type of electricity used in homes. The inverter is an important component of the system, as it ensures that the electricity generated by the solar panels is compatible with the electrical system in the home. 10 year manufacturer's warranty
