

Energy Storage Product Quality Policy

Overview

What is the new-type energy storage manufacturing industry?

According to an action plan jointly issued by the Ministry of Industry and Information Technology and seven other government organs, the new-type energy storage manufacturing industry refers to the sector that produces energy storage, information processing, safety control, and other products related to new energy storage methods.

How will China promote the new-type energy storage manufacturing sector?

BEIJING, Feb. 17 -- Chinese authorities unveiled several measures on Monday to promote the new-type energy storage manufacturing sector, as part of efforts to accelerate the development of emerging industries and the country's modern industrial system.

What is a quality requirements specification (QRS)?

The purpose of this quality requirements specification (QRS) is to specify quality management requirements and the proposed extent of purchaser intervention activities for the procurement of battery energy storage systems (BESSs) in accordance with IOGP S-753 for application in the petroleum and natural gas industries.

How can China improve international cooperation in the energy storage sector?

To beef up international cooperation in the new-type energy storage sector, China will work to incorporate collaboration in the field into international cooperation mechanisms and frameworks such as the Belt and Road Initiative and BRICS and promote mutually beneficial cooperation on industrial and supply chains.
