

Energy companies offer discounts on 150-foot photovoltaic energy storage containers

Overview

What is a photovoltaic-plus-storage company?

It specializes in photovoltaic-plus-storage projects intended for generation, storage and application of renewable energy. The China-based firm started as a battery manufacturer and has expanded into diversified sectors like alternative energy, electric vehicles, and others. Founded: February 1995
Headquarters: Shenzhen, Guangdong, China.

What energy storage projects are offered?

The energy storage projects offered include direct current distribution systems, CES, anti-idling retrofit and pole utility solutions. Among the latest innovations is the extremely fast EV charging solution with a storage system for the highest efficiency and a MEG for emergency use. Headquarters: Saint Louis, US.

Why should you choose Sunway ESS battery energy storage system?

5□High degree of standardization, integration, rapid deployment, short construction and commissioning period, simplicity and easy maintenance. Sunway Ess battery energy storage system (BESS) containers are based on a modular design. They can be configured to match the required power and capacity requirements of client's application.

Why should you choose a solar storage container?

Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy. Lower energy/maintenance costs ensure operational savings.
