

# **Energy storage container battery assembly**

## Overview

---

Where is the containerized battery energy storage system manufactured?

The containerized battery energy storage system has been manufactured in Odense, Denmark by the system integrator and turnkey supplier Trident Maritime Systems. The battery system will be shortly transported to Singapore and installed on board the Maersk Cape Town.

What is a battery container?

UNISEG's Battery Container is designed for the safe and convenient storage and transportation of waste / used lead acid batteries (car & automotive).

What is a battery transport & storage container?

The Battery Transport & Storage Container, helps companies comply with the various regulations governing the storage and transportation of lead acid batteries. And thereby meet their “duty of care” and “chain of responsibility” requirements.

What is a Bess energy storage system?

This solution caters to the growing demand for large-scale energy storage solutions for renewable energy, grid stabilization, and backup power systems. Maestrotech's BESS assembly lines optimize the production of energy storage units with advanced automation and high precision.
