

# **Energy storage liquid cooling system manufacturer**

## Overview

---

Who makes liquid cooling products in China?

The high computing power density of AI servers Make “liquid cooling” a cost-effective and efficient means of temperature control. This article introduces the top 10 manufacturers of liquid cooling products in China, namely Inspur Information, Sugon, Lenovo, Invicoolool, Goaland, Tsinghua Unigroup, TANATAL, Sugon, Alibaba Cloud, and ZTE.

Who manufactures Alphacool liquid cooling systems?

Alphacool is a German manufacturer that diversified into producing liquid cooling systems for PCs. In the 90's, when liquid cooling became a trend, many companies were founded focused on the design and supply of PC-specific liquid cooling systems. One of these companies was Alphacool.

What is liquid cooling technology?

Liquid cooling technology refers to the technology that uses liquid instead of air as a refrigerant to exchange heat with heat-generating components and take away heat. Liquid cooling technology is to directly introduce a liquid cooling system into the server to dissipate heat, or put the server directly into the cooling liquid.

What is panjiu liquid cooled all-in-one machine?

At the end of 2021, the company released a single-phase immersion liquid cooling solution—Panjiu liquid-cooled all-in-one machine Immersion DC 1000 series, including liquid-cooled A100 all-in-one machine, liquid-cooled computing all-in-one machine, and liquid-cooled storage all-in-one machine, with three major features:
