# Export energy storage batteries to Europe and the United States

## Overview

---

How can European policymakers help the battery storage sector?

Recommendations: How can European policymakers help the battery storage sector? Battery storage systems are essential for strengthening the EU's energy security and competitiveness by enhancing flexibility, providing ancillary services to secure the grid, maximising the use of renewable energy, and effectively dealing with energy price volatility.

Is the lithium-ion energy storage battery manufacturing industry growing?

The confluence of these trends in employment, sales, prices, imports, and exports likely indicates the growth of the lithium-ion energy storage battery manufacturing industry in the United States in recent years.

Which countries export lithium ion batteries?

By value, the listed 15 countries shipped 88% of lithium ion batteries globally exported in 2024. Among the top exporters, the fastest-growing lithium ion batteries exporters since 2023 were: Poland (up 20.9%), mainland China (up 18.4%), Indonesia (up 11.9%) and the United Kingdom (up 6.9%).

Which countries are leading the battery storage market in 2024?

Germany, France, and the United Kingdom continue to lead the market and deliver almost 70% of the annual capacity. In 2024, Europe's top three battery storage markets – Germany, Italy, UK – solidified their dominance, with Austria and Sweden closing the 'top 5' ranking (see Fig. 2). 2024 marked the first year when reac

## Export energy storage batteries to Europe and the United States

### [Addressing Tariffs and Trade in Energy ...](#)

Two major areas of international trade that will remain causes of concern for energy storage projects are the application of tariffs and supply chain integrity. While it remains to be seen what the US administration ...
