

Factory Electric Energy Storage Project

Overview

Is Tesla's Shanghai megafactory a good example of cooperation?

An aerial drone photo taken on Dec 15, 2024 shows a view of Tesla's megafactory in east China's Shanghai. [Photo/Xinhua] SHANGHAI -- US carmaker Tesla's Shanghai energy storage Megafactory has begun trial production, serving as a good example of cooperation between China and the United States to address climate challenges.

What is the Tesla megafactory?

The Megafactory is the first of its kind that Tesla has built outside the United States. At its launch ceremony in May, Tesla signed a deal with Shanghai Lingang Economic Development (Group) Co Ltd, securing the first batch of orders for its Megapacks in China.

What energy storage products does Tesla make?

Tesla's energy storage products include the Powerwall, Powerpack and Megapack. The Shanghai Megafactory mainly produces Megapack, an ultra-large commercial energy storage battery, which will be supplied to the global market.

Will Tesla build a grid-scale battery plant in China?

Photographer: Carla Gottgens/Bloomberg via Getty Images Tesla has signed its first deal to build a grid-scale battery power plant in China amid a strained trading relationship between Beijing and Washington. The U.S. company posted on the Chinese social media service Weibo that the project would be the largest of its kind in China when completed.
