

Folding solar water pump

Overview

How to use a solar fountain pump?

Just place the solar fountain in the water and long as the sunlight hits the solar panels, the fountain pump will automatically work. This solar pump is perfect for bird bath, fish tank, small pond, pool, garden, water circulation for oxygen.

What is a solar powered water pump?

A solar powered water pump is an eco-friendly, off-grid solution that uses solar energy to move water from wells, rivers, ponds, or tanks—without needing electricity or fuel. Perfect for farms, homes, and remote areas, these pumps are powered by photovoltaic panels and come in both surface and submersible options.

What is a solar water pump kit?

The Solarriver Solar Water Pump Kit is perfect for large fountains, ponds, waterfalls and rainwater collection. Its solar panel comes with a stake and can be placed anywhere due to using the 16 feet long chord or even an additional 16' extension if needed.

How to install a solar pond fountain?

Solar pond fountain sprays water up to 17 inches, water flow: 0-160L/H. The height of water depends on the strength of the sunlight 2 Install Methods and Easy Clean: Solar panel can be screwed on the wall or inserted into the ground. The solar water pump is small and easy to hide. No need any tools to detach it, easy to separate and clean.
