

# **Georgetown grid-connected inverter prices**

## Overview

---

What is a grid tie inverter?

On grid inverter or grid tie inverter from Inverter.com, can convert direct current into alternating current. Its AC output can synchronize with the frequency and phase of mains supply. On grid inverters are commonly used in applications where direct current voltage sources are connected to the grid, such as solar panels and small wind turbines.

What is a 600 watt grid tie solar inverter?

Good price and high quality 600 watt grid tie inverter is a compact unit, which directly converts 12V/ 24V/ 48V DC into 120V/ 240V AC for 28V-40V solar panels appliances. Smart grid tie solar inverter features maximum power point tracking and power automatically locked functions, making efficiency higher than 99%.

How to choose a grid tie solar inverter?

When purchasing a grid tie power inverter, you have to make sure it suits the size of your solar panel system. For example, if your solar panel array has a combined power of 5kW then a 5,000 W inverter should be just right for it. Consult with the grid tie solar inverter manufacturer when in doubt and read the guidelines.

What is a 20kW grid tie solar inverter?

Pure sine wave 20kW rated power grid tie solar inverter with competitive price and excellent quality, 2 MPPT, maximum input voltage to 850V, three phase 240V/ 380V/ 460 AC rated output voltage. The protection degree of the 20kw grid tie inverter is IP65.
