

## **Helsinki 18KW inverter**

## Overview

---

What is the EG4 18kpv-12lv solar hybrid inverter?

The EG4 18KPV-12LV Solar Hybrid Inverter offers 18kW PV input, 12kW output, remote monitoring, and seamless grid-tie/off-grid functionality.

What is a 18kpv inverter?

The 18kPV is a 48V split-phase hybrid inverter that's capable of running off-grid, in grid-assist hybrid mode, or even as a grid-connected unit that allows you to sell power back to the grid for net metering purposes. Here's a quick look at its specifications and features according to EG4:.

How many units can a solar inverter run?

With 18kW PV input and 12kW output, the inverter offers high energy handling and can parallel up to 10 units for expanded capacity. A 600V DC input and three MPPTs ensure optimal energy conversion and streamlined cable management.

What are the key features of a solar inverter?

Key Features: High Performance Output – 18,000W PV input with 12,000W continuous output, stackable for even greater capacity. All-in-One Design – Combines inverter, power management, and storage integration with simple plug-and-play installation.
