

High-Temperature Resistant Folding Containers for Oil Refineries St George Type

Overview

What is a crude & HFO storage tank?

The Crude & HFO Storage Tank from TEC Container Solutions provides high-capacity, insulated static storage for crude oil, heavy fuel oils (HFO), and other high-viscosity products. Built with a double-walled, fully bundled design, it ensures environmental protection while maintaining stable product temperatures even in harsh conditions.

Why should you choose TEC's crude oil & HFO storage tank?

With optional thermal fluid, steam, or direct fire heating integration, and modular ISO-framed mobility, it delivers a flexible, compliant solution for refineries, terminals, blending facilities, and remote energy sites worldwide.

Why Choose TEC's Crude Oil & HFO Storage Tank?

Struggling with safe storage for heavy, viscous products?

.

What is the largest crude oil storage tank in the world?

The largest crude oil tank in the world is 250,000 m³, 100,000 m³ crude oil storage tanks have been common and they will be the main size now or in the future. In general, crude oil storage tank has two kinds, fixed roof tank and floating roof tank. Fixed roof tank is usually used when the quantity of crude oil is not too much.

What are the different types of crude oil storage tank?

In general, crude oil storage tank has two kinds, fixed roof tank and floating roof tank. Fixed roof tank is usually used when the quantity of crude oil is not too much. While, floating roof tank is the optimum selection for storing larger quantities of crude oil.
