

# High quality hybrid inverters in Australia

## Overview

---

Are hybrid inverters a good choice for home solar?

As solar technology improves, hybrid inverters are now key for home solar systems. In 2025, the best hybrid inverters are efficient, reliable, and suited to Australia's energy needs. A hybrid inverter is a device that lets you use more of your solar power, save money by using less electricity from the grid, and keep the lights on during blackouts.

Are hybrid inverters a good investment in 2025?

Up to \$18,600 Solar Battery Rebates Available! As Australia continues its exciting journey towards renewable energy, hybrid inverters are a game-changer for homeowners who are seeking to maximise their solar power systems. In 2025, demand for efficient, reliable, and versatile hybrid inverters is at an all-time high.

Which hybrid inverter is best for Australian homes?

In the middle range, SolarEdge has a rating of 8.3, and GoodWe is at 7.8, which are decent but not the best. Solis and Growatt are tied at 7.0, showing average performance. Sigenenergy scores 6.8, and SolaX is the lowest at 6.5. The graph makes it easy to see which hybrid inverters are the most reliable for Australian homes. Still confused?

.

What is a hybrid inverter?

Hybrid inverters, also called multi-mode inverters, can operate in different modes depending on household power consumption and backup power requirements. Like regular string solar inverters, hybrid inverters also convert solar DC (Direct Current) power from strings of solar panels to AC (Alternating Current) power used to power your home.
