

How many companies are there in Samoa that produce energy storage containers

Overview

How many biogas systems are there in Samoa?

There are 5 Biogas Systems in Samoa. Five of the systems have a Daily Gas Production capacity of 5 cubic meters and one with 3 cubic meters. The largest one with 300 cubic meters at Ulu is reportedly inactive. The number of solar panels with specification detail information were not made available by the Ministry of Natural Resources and Environment.

Is Samoa an energy residual?

Samoa is an energy residual. The physical supply and use of energy accounts for Samoa was compiled according to the United Nations System of Environmental-Economic Accounting 2012 (UN-SEEA 2012) Central Framework.

What influenced Samoa's energy supply trend in 2022?

Samoa's total energy supply trend is evidently influenced by the supply of imported energy products. Total energy supply in 2022 was decreased by 10.2% compared to 5,621.5 TJ in 2021. Imported energy products also decreased.

What are Samoa's energy goals?

One of Samoa's main goals for the energy sector is to achieve 70.0 % renewable energy use by the end of 2031, as stipulated in the Pathway for the Development of Samoa (PDS 2021/22- 2025/26). The Energy Account also provides statistics to assess and monitor
