

# **Huawei Tiraspol New Energy Storage Policy**

## Overview

---

What is Poland's energy storage subsidy?

Learn about Poland's €1 billion energy storage subsidy aimed at installing 5.4 GWh of BESS by 2028, strengthening grid stability and accelerating the green transition.

How can energy storage support Poland's electricity system?

By addressing challenges such as peak load balancing and frequency regulation, energy storage enhances the resilience and flexibility of Poland's electricity system. The storage support program is expected to begin accepting applications in the second quarter of 2025. Full details and deadlines will be published by the NFOŚiGW.

What is Huawei ESS & how does it work?

Huawei provides a one-fits-all solution that integrates optimizers, PV, ESS, chargers, loads, grid, and management system to help various industries go green and low-carbon by providing system-level active safety and stronger capabilities for green power supply and power grid support. Safety is especially critical in C&I ESS scenarios.

How much money does Poland spend on battery energy storage?

Poland has finalized a comprehensive subsidy program aimed at accelerating the deployment of battery energy storage systems (BESS), with a total budget of PLN 4 billion (approximately €1 billion).
