

Huawei s solar inverter factory in Chile

Overview

Where are Huawei solar inverters made?

With more than 194,000 employees and operations in over 170 countries and regions, the company doesn't seem to stop and is actually achieving big milestones at a very high rate. Even though Huawei has establishments all over the world, the main manufacturing location for its solar inverters is still China.

How do Huawei solar inverters work?

Huawei inverters innovate and optimize solar energy throughout the entire power generation lifecycle. Huawei integrates cutting-edge digital, internet, and PV technology into their solar inverters. Embedding innovative technology intelligence into the inverters, it connects every object and process.

How much does a Huawei solar inverter cost?

Nonetheless, we were able to make an estimate and calculate an average for the main inverters people buy from Huawei Solar. In general, they range from about €1,200 for the SUN2000-5KTL to €3,000 for bigger models such as the SUN2000-30KTL. Remember that these prices are just an estimation, and they may greatly vary in the future.

Where are Huawei inverters used?

Their products are used in more than 170 countries, by over three billion people. Huawei inverters are used at the world's largest single PV plant, tracking system PV plant and rooftop-mounted PV plant. Huawei's parent company is Huawei Investment & Holding.
