Kingston Power Energy Storage Project

Overview

Does Kingston support a long-duration energy storage project?

This article was published more than 6 months ago. Some information may no longer be current. As an active participant in Ontario's energy transition, Utilities Kingston is supporting a long-duration energy storage project that would store electricity to be used in meeting peak demand.

What is the Kingston solar project?

The Kingston Solar Project is a 100 MW solar facility located in the City of Kingston and Loyalist Township. The facility is one of the largest solar projects in North America.

What is Quinte energy storage centre (qesc)?

We are proud to be a partner on the proposed Quinte Energy Storage Centre (QESC), that would contribute 500 MW of capacity and eight hours of storage for continuous discharge into the provincial grid.

Why should Ontario invest in energy storage technology?

The technology will provide bulk scale, long-duration energy storage that is emission and fuel free, supporting Ontario with its GHG reduction goals and resulting in minimal environmental impact.
