

Lifepo4 power station factory in Myanmar

Overview

What is a LiFePO4 power station?

A LiFePO4 power station is a type of portable power station that uses lithium iron phosphate (LiFePO4) batteries. These power stations are ideal for certain environments, particularly hot areas, due to their stable chemistry. The most popular brand using LiFePO4 batteries is Bluetti.

Where is powerchina located?

Located in Magway Province, Myanmar and with a total installed capacity of 40.28 MWp, the power station is projected to generate 64.64 million kWh of electricity for the grid on average per year. Since the start of the project, POWERCHINA has completed various tasks, such as power agreement signing and land leases.

How much electricity does the kyeeonkeewa photovoltaic power station generate?

POWERCHINA construction workers celebrate the grid-connected power generation of the Kyeeonkeewa Photovoltaic Power Station in Myanmar. Located in Magway Province, Myanmar and with a total installed capacity of 40.28 MWp, the power station is projected to generate 64.64 million kWh of electricity for the grid on average per year.
