

Lisbon is doing solar container outdoor power BESS

Overview

Who is constructing a Bess project in Portugal?

A 5MW/20MWh BESS project Powin and Hitachi deployed for Galp in Portugal. Image: Powin / Hitachi / Galp. Oil, gas and renewables firm Galp has announced construction on BESS projects in Spain and Portugal using equipment from inverter and BESS firm Sungrow.

Where will Galp install a Bess solar PV plant in Spain?

In Spain, Galp will install a 14MW/28 MWh BESS at a solar PV plant in Manzanares, in the Castilla-La Mancha region. The operation and optimization of the BESS projects will be directed by Galp's Control Center, a dispatch centre approved by REN and REE, in Portugal and Spain, respectively.

Will Galp's Bess projects play a role in the Iberian grid?

This builds on Galp's earlier 5MW/20MWh project in Portugal, developed with Powin and Hitachi before Powin entered administration. With the ability to deliver multiple ancillary services, Galp is positioning these BESS projects to play a pivotal role in the Iberian grid as renewables expand.

Which solar-plus-storage projects are available for public consultation?

The projects listed for public feedback on the government's consultation portal include two solar-plus-storage sites. Two solar-plus-storage projects are among five planned renewable energy sites whose details have been published for public consultation on the Portuguese Environment Agency's Participa portal.
