

**GETON CONTAINERS**

# **Malaysia's reliable energy storage container integrated system**

## Overview

---

What is energy storage system in Malaysia?

Outlook of energy storage system in Malaysia Energy storage is one of the emerging technologies which can store energy and deliver it upon meeting the energy demand of the load system.

Is Sarawak Energy launching a battery energy storage system in Malaysia?

With the growing demand for reliable electricity supply, Sarawak Energy has recently commissioned the first utility-scale Battery Energy Storage System (BESS) in Malaysia.

Is Malaysia ready for energy storage?

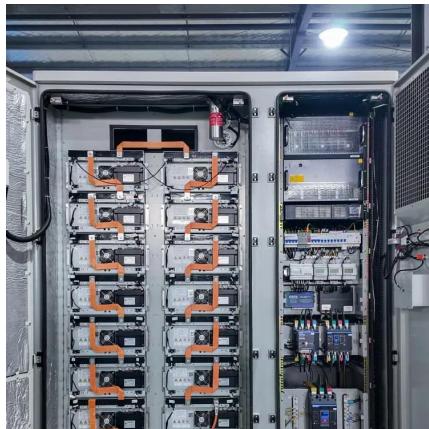

(Photo: iStock) Malaysia is rapidly expanding solar and other intermittent renewable generation, creating strong momentum for energy storage. The country's first four large-scale grid-connected storage projects have attracted significant interest, with more than 20 companies submitting over 30 proposals.

Who are the bidders for Malaysia's first large-scale battery system?

Bidders include established energy players as well as newcomers from the infrastructure and property development sectors. In 2024, Malaysia launched its first large-scale storage initiative, known as MyBeST, to build four grid-connected battery systems of 100MW/400MWh each.
