

# **Netherlands outdoor energy storage cabinet production base**

## Overview

---

Will the Netherlands install its largest energy storage system?

The Netherlands is set to install that country's largest energy storage system in an effort to support power grid stability.

What is the Netherlands Advancion energy storage array?

The Netherlands Advancion Energy Storage Array was commissioned in late 2015 and provides 10 MWh of storage to Dutch transmission system operator TenneT. The project, which represents 50% of all Dutch energy storage capacity, provides frequency regulation by using power stored in its batteries to respond to grid imbalances.

Is there a business case for energy storage in the Netherlands?

As mentioned above, there have been two major barriers, or stumbling blocks, to the business case for energy storage in the Netherlands to date. As of the beginning of 2022, one of those has been eliminated, to the great relief of GIGA Storage and others in the industry.

Are all energy storage facilities in the Netherlands electro-chemical?

All energy storage facilities in the Netherlands are electro-chemical, with the exception of the contracted 1 MW Hydrostar underwater compressed air energy storage project in Aruba (Caribbean). Hydrostar is a Canadian company specializing in underwater compressed air energy storage technologies.
