

New Energy Storage Innovation Consortium Society of New York USA

Overview

What is the New York battery & energy storage technology consortium?

The New York Battery and Energy Storage Technology (NY-BEST™) Consortium, established in 2010, serves as an expert resource for energy storage-related companies and organizations looking to grow their business in New York State.

What is new energy New York?

New Energy New York's coalition and program mission is to meet the demand for U.S. battery products by accelerating the battery research, development and manufacturing ecosystem in Western, Central and Southern Tier regions of New York state.

What makes New York the future of batteries & energy storage systems?

Our network of universities, business incubators, training resources, testing and prototyping facilities in N.Y. makes the future of batteries and energy storage systems safer, reliable and environmentally conscious.
