

# **New solar container outdoor power in Iraq**

## Overview

---

Will Iraq's solar farm pave the way for future solar projects?

The success of the TotalEnergies solar farm could pave the way for future solar and wind projects across the country. The TotalEnergies 1 GW solar project in Iraq is more than a milestone for renewable energy — it's a clear signal of Iraq's commitment to sustainable development and energy security.

Will totalenergies build a solar power plant in Iraq?

French energy major TotalEnergies will build a 1-gigawatt solar power plant in Iraq as part of a cluster of contracts it was awarded in 2021 for an integrated project that entails a total investment of \$27 billion over 30 years.

Does Iraq need solar energy?

Iraq has abundant untapped solar resources that could allow it to achieve its target and reduce reliance on imports of electricity. Additionally, the cost of electricity powered by solar energy is lower than that of oil- or gas-fired energy.

How will a solar farm help Iraq's oil-dependent energy sector?

This landmark solar project will help Iraq diversify its heavily oil-dependent energy sector by tapping into abundant solar resources. Once completed, the 1 GW solar farm will generate clean, reliable power for thousands of homes and businesses while easing the burden on Iraq's overworked power grid.
