

PV inverter connected to new wifi

Overview

Do I need to connect my solar inverter to Wi-Fi?

Although it's possible to connect your solar inverter to Wi-Fi yourself, you should not need to. When your solar specialist installs your solar inverter, they will usually connect it to the Wi-Fi themselves to save you the trouble.

What is a Wi-Fi solar inverter?

Wi-Fi solar inverters are inverters that can connect to the internet through a Wi-Fi network. Through this network and a smart device, you can monitor the performance and energy data of your solar system through an app or website in real-time.

How do I connect my Growatt solar inverter to WiFi?

This guide provides a step-by-step process for connecting your Growatt solar inverter to WiFi, enabling you to monitor and manage your solar energy system effortlessly. To connect your solar inverter to WiFi, access your device's WiFi settings and connect to the inverter's temporary WiFi network.

How do I connect a goodwe solar inverter to WiFi?

The steps to connect a GoodWe solar inverter to Wi-Fi are: Download and install the SEMS portal app, and ensure that your solar inverter or Ez Logger Pro (WiFi Version), as well as your modem are turned on. Launch the app and select 'WiFi Configuration' at the login page. Alternatively, you can select the WiFi icon at the homepage.
