Power storage for R

Overview

Who is R power?

Developer and independent power producer (IPP) R.Power has been awarded €15 million (approximately US\$15.6 million) in non-reimbursable state funding to build its first large-scale battery energy storage system (BESS) in Romania.

Where is R power located?

R.Power's project is likely among these. R.Power, headquartered in Warsaw, Poland, is active in several European countries, including Italy, Portugal, Spain, and Germany. The company develops and operates energy projects and occasionally sells some of its developments.

What is R power doing in Romania?

In addition to its activities in Romania, R.Power is involved in several renewable energy and storage initiatives across Europe. In related news, IPP Renalfa has acquired a 258 MW solar project in Teleorman, Romania, which is expected to begin operations in 2027.

How much money will R Power Renewables make from Bess projects?

As part of a 17-year agreement that will begin in 2029, R.Power Renewables will invest in four BESS projects with a combined storage capacity of 2.3 GWh. These projects are projected to generate an estimated 1.6 billion PLN (376 million EUR) in revenue through the capacity market over the term of the agreement.
