

Pretoria Communications 5G base station distribution range

Overview

What mobile network coverage is available in Pretoria?

This map represents the coverage of 2G, 3G, 4G and 5G mobile networks in Pretoria, City of Tshwane Metropolitan Municipality, Gauteng. See also : mobile bitrates map in Pretoria, City of Tshwane Metropolitan Municipality, Gauteng. See also the 3G / 4G / 5G mobile network coverage in : See also the 3G / 4G / 5G mobile network coverage in your area:.

How are 5G base stations selected?

However, the selection of 5G base station locations is also influenced by local terrain and population distribution, and obstacles such as streets, buildings, and trees can significantly impact signal propagation.

How many 5G base stations are there in general urban areas?

It is known that there are 20 3/4G shared base stations in this area. According to Section 5, the number of base stations in general urban areas ranges from 20 to 36. Therefore, in the simulation experiment, the optimal results of the base station layout are shown in Table 10. Table 10. Layout results of 5G base station in general urban areas.

How effective is 5G base station optimization in urban areas?

Comparison results of 5G base station optimization in general urban areas. As shown in Table 11, the algorithm proposed in this topic reduces the site construction cost by at least 13 %, improves the coverage by at least 5.4 %, and reduces the number of base stations by at least 17.6 % compared to other algorithms.
