

# **Price of 40-foot photovoltaic container for African mines**

## Overview

---

What is a PV solar plant in South Africa?

In 2021, PAN African Resources became the first mining company in South Africa to establish a large-scale PV solar plant. Developed and constructed by JUWI, this grid-connected solar plant provides 10 MW of clean energy to the Elikhulu Tailings Retreatment Plant at the Evander mine.

What is a solar panels on shipping container?

It not only transports the PV equipment, but can also be deployed on site. It is based on a 10 - 40 foot shipping container. Efficient hydraulics help get the solar panels ready quickly. Due to its construction, our solar panels on shipping container offers unmatched flexibility and maneuverability.

How long does it take to ship a solar container?

Standard solar container models can be manufactured and ready to ship in as little as 4-6 weeks. Customized configurations can take up to 8-10 weeks, with shipping times varying by destination. Do you offer after-sales support for mobile solar PV containers?
