

Santo Domingo Smart Photovoltaic Energy Storage Container Smart Procurement Contract

Overview

What is ST Engineering doing in the Dominican Republic?

Its innovative integration of marine engineering and energy generation received the Plant of the Year accolade from Power Magazine for its pioneering floating combined-cycle gas turbine power barge. ST Engineering's Marine business and Siemens Energy have been awarded a second contract to deliver Estrella del Mar IV in Dominican Republic.

How will a new power plant benefit the Dominican Republic?

The new power plant will be based on its predecessor, the Estrella del Mar III. When completed, it will enhance the Dominican Republic's energy infrastructure with greater efficiency, flexibility and sustainability.

Can floating power plants overcome land and infrastructure constraints?

"Floating power plants like Estrella del Mar IV demonstrate how innovative engineering can overcome land and infrastructure constraints, while delivering reliable and resilient energy," said Andreas Pistauer, Global Head of Sales for Gas Services at Siemens Energy. The Estrella del Mar III was commissioned in 2022.
