

**GETON CONTAINERS**

# **Seoul Energy Storage Power Station Construction Project**

## Overview

---

What is Gyeongsan substation – battery energy storage system?

The Gyeongsan Substation – Battery Energy Storage System is a 48,000kW lithium-ion battery energy storage project located in Jillyang-eup, North Gyeongsang, South Korea. The rated storage capacity of the project is 12,000kWh. The electro-chemical battery storage project uses lithium-ion battery storage technology.

What is Nongong substation energy storage system?

The Nongong Substation Energy Storage System is a 36,000kW lithium-ion battery energy storage project located in Dalsung, Daegu, South Korea. The rated storage capacity of the project is 9,000kWh. The electro-chemical battery storage project uses lithium-ion battery storage technology.

What is Ulsan substation energy storage system?

The Ulsan Substation Energy Storage System is a 32,000kW lithium-ion battery energy storage project located in Namgu, Ulsan, South Korea. The rated storage capacity of the project is 8,000kWh. The electro-chemical battery storage project uses lithium-ion battery storage technology. The project was announced in 2016 and will be commissioned in 2017.

Why is South Korea launching a 540mw battery energy storage tender?

South Korea is ramping up its battery energy storage deployment with a new 540MW tender to stabilize the grid and support renewable energy growth. Learn how this move strengthens both domestic resilience and global market leadership.

## Seoul Energy Storage Power Station Construction Project
