

Slovakia installs solar panels

Overview

How much solar energy did Slovakia add in 2024?

Slovakia added 274 MW of solar in 2024, according to figures from the Slovak Association of the Photovoltaic Industry (SAPI). The result is a slight increase on 2023 levels, when a total 267 MW was installed.

How much solar power does Slovakia have?

Last year's solar additions, led by installations in the commercial and industrial sector, took Slovakia's cumulative solar capacity to over 1 GW. Slovakia added 274 MW of solar in 2024, according to figures from the Slovak Association of the Photovoltaic Industry (SAPI).

Who is Slovak solar?

Slovak Solar s.r.o. is a leading photovoltaic wholesaler in Slovakia, Czech Republic and Austria, with a vision to create a sustainable energy future. We started our journey in 2009 with the main idea – to provide companies specialised in the installation of solar systems with access to first-class photovoltaic products, all from one place.

Why should you choose Slovak solar?

At Slovak Solar, we believe that progress comes from constant innovation. From day one, we've been breaking new ground in Slovakia's solar energy sector. We were one of the first company in Slovakia to install Building-Integrated Photovoltaics (BIPV).
