

Smart Financing Solution for Photovoltaic Containers in Hotels

Overview

Are hotels investing in solar power plants?

More and more modern hotels are investing in the construction of their own solar power plants. Avenston designs and builds solar energy solutions for hospitality companies. Our solar power plants are installed on the roofs and facades of hotels and provide clean and cheap electricity.

Which hotels use solar power?

Its solar power system comprises 2,700 panels generating 1.2 million kilowatt-hours (kWh) annually. Courtyard by Marriot-Lancaster is also the first Marriot-branded hotel in the U.S. to meet all its energy requirements from solar power. Waianuhea Eco Resort - As the name suggests, Waianuhea B&B is an eco-friendly facility in Honokaa, Hawaii.

How solar energy technology is transforming the hospitality industry?

Innovative solar energy technologies are continuously emerging in the hospitality industry. These include solar concentrators, solar windows, and solar-powered charging stations. Collaborations and partnerships between solar energy companies and hospitality businesses are promoting the widespread adoption of solar energy systems.

Is solar energy a viable option for the hospitality industry?

The utilization of solar energy in the hospitality industry has undergone significant transformations over the years. Early adopters faced challenges such as low efficiency and high costs. However, with advancements in solar panel technologies and improvements in conversion methods, solar energy has become a viable option for the industry.
