

Solar container battery storage factory in America

Overview

Where is the containerized battery energy storage system manufactured?

The containerized battery energy storage system has been manufactured in Odense, Denmark by the system integrator and turnkey supplier Trident Maritime Systems. The battery system will be shortly transported to Singapore and installed on board the Maersk Cape Town.

Which US energy storage projects has Saft delivered?

Since delivering its first US energy storage project in Alaska in 2003, Saft has also delivered major projects such as the Myrtle and Danish Fields utility scale solar power plants in Texas, US, each exceeding 200 megawatt-hours (MWh) of storage.

Why is energy storage important?

Energy storage makes a vital contribution to the decarbonization of the energy mix as an integral element of renewable energy installations, microgrids and grid stability projects. According to Bloomberg the US is the second largest and most mature ESS market in the world, with 2023 being a record year that saw 22 GWh of capacity deployed.
