

Solar container lithium battery 36v battery pack

Overview

What is a 36 volt battery pack?

A 36 volt battery pack with lithium-ion technology delivers concentrated energy for demanding applications in trade and industry. These battery packs power tools that are in no way inferior to their mains-powered counterparts.

What are Chargex® lithium iron phosphate batteries made of?

CHARGEX® Lithium Iron Phosphate Batteries are made with our 32700 - 3.2V 6AH Stainless Steel LiFePO4 cells that are bolted together through our Lengthway Circuit Boards. The Lengthway Circuit Boards provide rigid strength to cells core and are connected to the heart of the system's BMS that will balance individual cells.

How are Chargex® lithium iron phosphate batteries bolted together?

CHARGEX® Lithium Iron Phosphate Batteries are bolted together using our 3.2V 6AH Stainless Steel Cylindrical Cells which adds rigid strength and superior current conductivity compared to the lesser quality tab welded method.

What is a lithium iron phosphate battery?

Our Lithium Iron Phosphate Batteries are built with a First Class - Fully Automatic Built in Battery Protection System (BPS) . This Highly Advanced Internal Battery Protection System will automatically turn off the battery if it is drained below 8V preventing accidental over discharge or if it is charged above 16V.
