

Solar container outdoor power BESS in Rotterdam the Netherlands

Overview

Where is the Netherlands' largest stand-alone battery energy storage system located?

Dispatch, a Dutch battery developer, is going to construct the Netherlands' largest stand-alone Battery Energy Storage System (BESS). This groundbreaking 45MW/ 90MWh utility-scale BESS will be located in the port area of Dordrecht, on a 6000m² site and will be used for grid stabilization by storing excess energy from renewable sources.

Why is Rilland a scalable energy storage solution?

“The Rilland installation is the first of its kind in the Netherlands with the storage capacity to deliver 10MW of power for 4 consecutive hours. While this alone cannot meet the total energy demand, it represents a critical and scalable step forward in sustainable energy storage innovation and grid flexibility,” Becker Hoff explains.

Is the Dutch electricity grid under strain?

S4 Energy's CCO, Dominique Becker Hoff, stated that the Dutch grid is under strain, citing growing demand and a mismatch between renewable energy availability and demand. “It is no secret that the Dutch electricity grid is under strain.

How will S4 Energy help the Dutch electricity grid?

S4 Energy said the project's ability to store energy for longer periods, combined with its rapid-response capabilities, will enable it to provide essential services to the grid and, eventually, end-consumers. Dominique Becker Hoff, CCO of S4 Energy, said: “It is no secret that the Dutch electricity grid is under strain.
