

Solomon Islands Energy Storage Project

Overview

Who is financing a solar energy project in the Solomon Islands?

The Asian Development Bank, Saudi Fund for Development, and Solomon Power are all financing the project. A project is now underway on the Solomon Islands to help the country accelerate its renewable energy generation.

How is the Solomon Islands project funded?

The project is being funded by a \$10 million concessional loan and a \$5 million grant from the Asian Development Bank (ADB), while the Saudi Fund for Development and state-owned Solomon Power are providing \$10 million each. The government of the Solomon Islands is providing \$7 million.

How many kilowatts of solar will be installed at Solomon power office?

Roof top solar – 220kilowatts at Solomon Power office. This will be commissioned toward end of November end this year. Planned Projects: Plans to acquire land with SDA mission on their land close to SP Lungga Station.

How is SP preparing a solar energy investment program?

SP, ADB and Entura are working together to prepare a solar energy investment program that is consistent with the Renewable Energy Road Map and SP Renewable Energy Development Program. To increase its renewable solar energy component, SP plans to build additional solar farms.
